

L.B. 194 from E&R to select file for specific amendment, that be the amendment which, of course, I understand you want and is on, now on the Clerk's desk. He will rewrite that motion. O.K.

SENATOR BARNETT: Thank you. I just done it through your voice--

SPEAKER: Good sir.

SENATOR BARNETT: I would move at this time that we return L.B. 194 back to E&R for a specific amendment which will specifically eliminate Lancaster County from L.B. 194 and I, I don't like to do this to my good friend, Senator Syas from Omaha, but I think we testified in committee that we had this air pollution control council and that it would ruin it in this county. I think it's a reasonable request. I can see no reason why he would want to oppose it at all at this time and therefore, I so move.

SPEAKER: Now, we can debate the motion. Very good. Senator Whitney, then Senator Syas.

SENATOR WHITNEY: A point of order.

SPEAKER: Yes sir.

SENATOR WHITNEY: As I understand it, if the bill is moved back, then I have an amendment to Senator Barnett's motion and Mr. President, isn't it correct that if we move it back to general file that my amendment could be put on if we had sufficient votes?

SPEAKER: If it was moved back to general file, yes. We can move it back now as he has moved to select file only for this specific amendment. If you want to amend that then, it has to be readvanced and it would have to be brought back again on your amendment to his amendment.

SENATOR WHITNEY: I thought if we put it back on general file that it was open to any amendments.

SPEAKER: That's correct, sir. It isn't going to general file. It's being brought back to select file. It's on E&R for Engrossing. It's been brought back to select file with Senator Duis' motion, excuse me, Senator Duis' suggestion that it could be brought back to general file and that is correct under the rules. It could have gone either way. My suggestion was because he only had the one amendment, was that it be, that it go on to E&R for Engrossing and brought back for the specific amendment and he apparently chose that route.

SENATOR WHITNEY: I would like to move to amend Senator Barnett's motion at the moment and that it be that all cities under 300,000 population, be exempted and that be a part of his amendment, that his motion be brought back.

SPEAKER: Senator Duis, for what purpose do you rise?

SENATOR DUIS: To try and help you, sir, if I might.

SPEAKER: Very good.

SENATOR DUIS: Senator Whitney, I do not believe under the rules, that you can amend his amendment on select file.

SPEAKER: That is correct.

SENATOR DUIS: The point here is you must let him finish his specific amendment. Then if his amendment carries and it's
